## ***Zelta A100 Mobile Phone***

### ***User Guide***

## **Preface**

*Please read the following guidelines before using your new Zelta Mobile phone. Utmost compliance with the following is highly recommended for your safety. Non-compliance may pose danger to you and your mobile phone, and may be illegal.*

*The Zelta A100 is packed with features to satisfy your needs such as Phonebook, Music Player, Video Player, Digital Camera, among others. It is Wi-Fi and Bluetooth capable and also meets the GSM/GPRS technical criteria. It is certified by both local and international authorities.*

*Zelta reserves the right to modify technical specifications without prior notice. Some content in this manual, i.e. software, images, accessories and more, may vary from that in the actual device. Please refer to your unit for accuracy. This guide aims to help you get started on your new Zelta Mobile phone. You will find the following icons periodically present to help you make better use of your device.*

## **1- Warning**

*Please read the concise rules. The breach of the rules may result in danger or violation of law.*

### **1 Safety information**

#### **1.1 Traffic safety first**

*Please use the mobile phone carefully when you drive a car. Park your car at roadside and then use the mobile phone if the driving condition is bad.*

#### **1.2 Turn off in hospital**

*Please abide by relevant provisions or regulations. Please turn off your mobile phone near medical equipment.*

### ***1.3 Turn off in airplane***

*Wireless equipment has disturbance to the airplane, so the use of the mobile phone in airplane is dangerous and illegal.*

### ***1.4 Turn off when refueling***

*Please don't use the mobile phone in gas station or near fuels or chemicals.*

### ***1.5 Turn off near blasting sites***

*Don't use the mobile phone in blasting sites. Please observe relevant restrictions and carry out rules or regulations.*

## ***2 Cautions on mobile phone use***

### ***2.1 Interference***

*All phones may be interfered, which affect phone calls.*

## **2.2 Reasonable use**

*Use only in the normal position. Do not touch the antenna area unnecessarily.*

## **2.3 Qualified maintenance service**

*Only qualified personnel may install or repair this product.*

## **2.4 Water-resistance**

*Your device is not water resistant. Keep it dry.*

## **2.5 Emergency calls**

*Ensure the phone is switched on and in service. Enter the emergency number and press the Dial icon.*

## **3 Precautions for use of battery**

**3.1** *Do not dispose of batteries near or in a fire to avoid dangers.*

**3.2** *Do not dispose of batteries in the garbage. Dispose of batteries to assigned battery recycling center.*

#### **4** *Cautions for children*

*Keep your device out the reach of children in case of accidental injury caused by incorrect use of the device as toys.*

## 11• Keys and parts

***The Symbols above indicate:***

- |                   |                  |
|-------------------|------------------|
| 1. Headphone Jack | 2. USB Interface |
| 3. Receiver       | 4. Front camera  |
| 5. LED            | 6. Menu Key      |
| 7. Home Key       | 8. Back Key      |
| 9. Display screen | 10. Power Key    |
| 11. Volume Key    | 12. Flash Light  |
| 13. Rear camera   | 14. Speaker      |

➤ ***Home key***

*Press Home key at a non-standby screen to go back to standby screen*

➤ ***Volume key***

*Press Volume key to change the volume.*

➤ **Menu Key**

Press Menu key to enter wallpaper, hide apps, show widgets, system settings menu.

➤ **Back Key**

Press Back key to go back to previous menu.

➤ **Power Key**

Short press on the Power key shall lock the screen and a long press on the Power key shall switch on/off the device.

**III. Start to use**

**1 Insert SIM card**

The phone is a Dual SIM mobile phone allowing you to use the facility of two networks.

To insert SIM card(s):

1. Switch off the mobile phone and remove the rear cover and

battery.

2. Insert the SIM card correctly in the card slot(s) (See figure below)

3. Finally insert the battery and replace the rear cover of the mobile phone.

*Note: SIM support Micro SIM which is a new kind of SIM for you. You can get it from operator or ask for changing a Micro SIM in a mobile shop.*

## ***2 Insert Memory card***

- 1. Power off the mobile phone and remove the rear cover and battery.*
- 2. Insert the Micro SD card into the slot.*
- 3. Finally insert the battery and the rear cover of the mobile*

phone.

*Note: Use only compatible memory cards for use with this device. Incompatible memory cards may damage the card or the device and corrupt the data stored in the card.*

### **3 Charge the battery**

*During charging, the battery indicator on the phone is a thunder icon. If the device is switched off during charging, there will still be a charging indication on the screen that shows the phone is being charged. If the device is overused --when the battery is low, the charging icon might take some time to appear.*

*When the battery indicator on the screen says 'charged', thunder icon will disappear, which means the completion of charging. During charging, the battery, the device and the charger will get hot. This is normal. Unplug the charger from the AC electrical*

outlet and disconnect the wiring between the phone and the charger after charging. ·

**Cautions:** Charge the phone in a well-ventilated place in which the temperature is between  $-10^{\circ}\text{C}$  to  $+55^{\circ}\text{C}$ . Use the charger provided by the manufacturer only. The use of unconfirmed charger may lead to dangers and violate the manufacturer's warranty clause. If the temperature is too high or too low during charging, the device will automatically send a warning and stop charging to avoid damage to the battery or any danger.

#### **IV. Basic functions**

##### **1 Lock and unlock the screen**

Press power button to enter Sleep mode and meanwhile the screen will be locked; press power button again to wake up and then drag to the right to unlock.

*Features and specifications are subject to change without prior*

notice. Certain mobile phone features may not be activated by your service provider, and / or their network setting may limit the feature's functionality. Services and some features such as GPRS, email may be dependent on the network, SIM card, as well as on the compatibility of the devices used and content formats supported and may require network/service subscription/solutions. Data transfers speeds are network dependent. Always contact your service provider for details or help. Talk and standby time is quoted in digital mode and are approximate; battery performance and the signal reception depend on network configuration, signal strength, type of SIM card, operating temperature, features selected as well as voice, data and other application usage pattern. The phones supports Bluetooth, in order for Bluetooth devices to communicate with

*one another, they must utilize the same Bluetooth Profile. For other devices, contact their respective manufacturers. Always demand for original Zelta mobile phones to protect against buying tinkered and/or used, refurbished or tampered phones. The warranty is applicable only for Zelta phones; the company is not responsible for any loss or theft. Always use Zelta original Enhancements (including batteries) for safety. The use of any other type may invalidate and approval or warranty applying to the mobile phone and may be dangerous. The phone is designed to operate using Li-ion batteries approved by the phone manufactures. Using non approved batteries with the phone may result in poor performance and damage to the phone or its enhancements. The display and products visualization here are illustrative purposes only; Display / color of the phone may differ*

*from that shown on the manual. All features, functionality and other product specifications are based on the latest available information and are correct at the time of printing; however such product specifications are subject to change without notice.*
